Administrative - Internal Use Only

Excerpts from ODP Div/Staff Reports for Week Ending 22 April 1983

Applications

Support to OSWR. TADS (Technical Analysis & Display
System). TRW presented a two-day overview of the TADS operating
system on April 13-14 at their Washington headquarters offices.
The course was intended primarily as an introduction for new TRW
programmers, but was also attended by seven ODP and OSWR staff
personnel. [   ]   STAT

Processing

Delta Data Upgrade. The first 100 kits for the upgrade of
Delta Data terminals from 3 to 4 MHz have been received. We have
resumed conversion activities. [   ]   STAT

SAFE. The DIA Message Processor System (MPS) successfully
received test cable traffic through the SAFE-D DATEX Emulation
(SADDE) interface in the Northside Center. [   ]   STAT

New Version of OS. Systems Programming Division (SPD)
conducted a full center test of MVS/JES3 Level B4 on Sunday,
17 April. The new system provides an I/O GEN for the 3033-2
(SY4), International Business Machines (IBM) software maintenance,
and fixes for Document Logging System (DLS) software. [   ]   STAT

Support to the DO. Teleprocessing Branch implemented new
GENS for Comtens to support an additional 50 terminals on the STAR
application on Friday, 15 April. [   ]   STAT

Support to CAMS. The VM Remote Job Processing (RJP) link
from TRW W-2 Building to GC-47 has been activated. The data link
that allows users to access CAMPROD from W-2 was also successfully
tested and connected this week. [   ]   STAT

Management Staff

Finance. As of 20 April 1983, there were 49 outstanding
advances with a dollar value of $17,099. No accounts were
delinquent. [   ]   STAT

Administrative Staff

ODP 83-583

2 1 APR 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM: _____   STAT

Director of Data Processing

SUBJECT: ODP Report for Week Ending 22 April 1983

1. SAFE Early Capability

The dedication of the installation of the SAFE Early Capability in the Northside Computer Center was held on 13 April. Dignitaries who addressed the approximately 100 attendees included the DDA and the DDI. After a tour of the Northside Computer Center, an analyst who uses the Early Capability in his daily work demonstrated how his capabilities have improved. The DCI was unable to attend, but is scheduled to visit the Center on Tuesday, 26 April.

Three additional DIA personnel were placed in a priority security clearance processing mode as a result of a letter from the Vice Director for Foreign Intelligence, DIA, to the DDA. Polygraph appointments for all three were scheduled for 21 April as a result of this request.

2. Support to the Office of Training and Education (OTE)

_____ of Quality Assurance/Configuration   STAT
Management, ODP, briefed representatives from the Office of Information Services (OIS) on the Applications System Life Cycle methodology and Configuration Management procedures. This briefing was the opening session of the new Information Management Seminar which has been developed by OTE for OIS personnel.

3. Terminals for _____ Building   STAT

The first 10 terminals for _____ Building have   STAT
been delivered and are being hooked up.

  4. Excess Equipment

        An Office of Scientific and Weapons Research-owned
IBM 360/65 computer system was declared excess to the Agency's
needs. The system had been provided to TRW in 1979 to support
Project [   ] The original system acquisition cost was   STAT
$963,000. However, the system's current market value has
dropped to $20,000.

  5. Significant Events During Coming Week

        The Director of Central Intelligence is scheduled to
tour the Northside Computer Center on Tuesday, 26 April. No
time frame has yet been set for the tour.

                                                                              STAT
